NEW DIMENSIONS IN HERBAL HEALING

DESK REFERENCE

A Systemic Formulas Reference Guide For Health Professionals
by Drs. Jack Tips & Timothy Kuss

Here is the ultimate guide to the clinical applications of Systemic® herbal formulas. Formerly only available in the New Dimensions In Herbal Healing Training Program, this reference guide has become a constant companion for many practitioners. It's three books in one, featuring:

1. **All the Systemic Formulas.** Here you find concise summary information on all the formulas including ingredients, keynotes, clinical notes and insights, dosage recommendation, packaging, plus plenty of room to add your own notes.
2. **Clinician's Guide To Systemic Herbal Healing** by Dr. Timothy Kuss. Here are the top 12 programs (such as Parasites, Candida, Immune Building, Anti-Infective, Energy Revitalization), spelled out in detail with much auxiliary natural health information and considerations.
3. **Clinician's Nutritional Reference** with approximately 400 health conditions listed and the key formulas that address how to help a person's body overcome them.

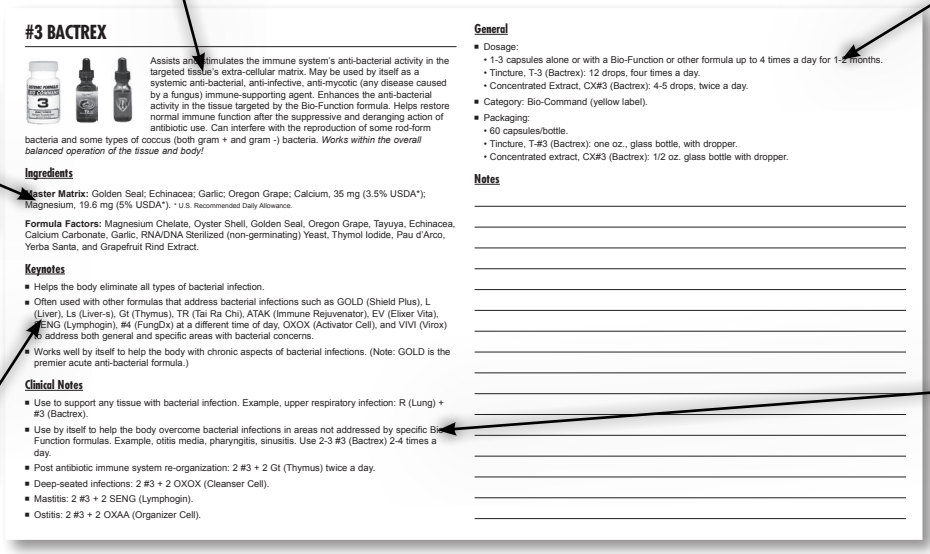
What the Formula Does

Dosage/Packaging helps you plan your protocols

Ingredients: shows master matrix that drives the formula activity and the supportive ingredients

Keynotes feature important points about the formula

Clinical Notes show specific applications



#3 BACTREX

Assists and stimulates the immune system's anti-bacterial activity in the targeted tissue's extra-cellular matrix. May be used by itself as a systemic anti-bacterial, anti-infective, anti-mycotic (any disease caused by a fungus) immune-supporting agent. Enhances the anti-bacterial activity in the tissue targeted by the Bio-Function formula. Helps restore normal immune function after the suppressive and deranging action of antibiotic use. Can interfere with the reproduction of some rod-form bacteria and some types of coccus (both gram + and gram -) bacteria. *Works within the overall balanced operation of the tissue and body!*

Ingredients

Master Matrix: Golden Seal; Echinacea; Garlic; Oregon Grape; Calcium, 35 mg (3.5% USDA*); Magnesium, 19.6 mg (5% USDA*). * U.S. Recommended Daily Allowance.

Formula Factors: Magnesium Chelate, Oyster Shell, Golden Seal, Oregon Grape, Tayuya, Echinacea, Calcium Carbonate, Garlic, RNA/DNA Sterilized (non-germinating) Yeast, Thymol Iodide, Pau d'Arco, Yerba Santa, and Grapefruit Rind Extract.

Keynotes

- Helps the body eliminate all types of bacterial infection.
- Often used with other formulas that address bacterial infections such as GOLD (Shield Plus), L (Liver), Ls (Liver-s), Gt (Thymus), TR (Tai Ra Chi), ATAK (Immune Rejuvenator), EV (Elixer Vita), SENG (Lymphogin), #4 (FungDx) at a different time of day, OXOX (Activator Cell), and VIVI (Virox) to address both general and specific areas with bacterial concerns.
- Works well by itself to help the body with chronic aspects of bacterial infections. (Note: GOLD is the premier acute anti-bacterial formula.)

Clinical Notes

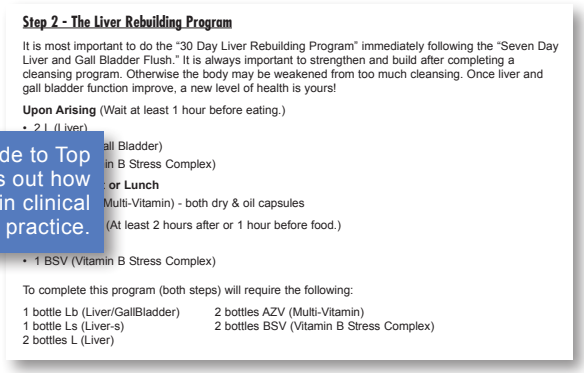
- Use to support any tissue with bacterial infection. Example, upper respiratory infection: R (Lung) + #3 (Bactrex).
- Use by itself to help the body overcome bacterial infections in areas not addressed by specific Bio-Function formulas. Example, otitis media, pharyngitis, sinusitis. Use 2-3 #3 (Bactrex) 2-4 times a day.
- Post antibiotic immune system re-organization: 2 #3 + 2 Gt (Thymus) twice a day.
- Deep-seated infections: 2 #3 + 2 OXOX (Cleanser Cell).
- Mastitis: 2 #3 + 2 SENG (Lymphogin).
- Ostitis: 2 #3 + 2 OXAA (Organizer Cell).

General

- Dosage:
  - 1-3 capsules alone or with a Bio-Function or other formula up to 4 times a day for 1-2 months.
  - Tincture, T-3 (Bactrex): 12 drops, four times a day.
  - Concentrated Extract, CX#3 (Bactrex): 4-5 drops, twice a day.
- Category: Bio-Command (yellow label).
- Packaging:
  - 60 capsules/bottle.
  - Tincture, T-#3 (Bactrex): one oz., glass bottle, with dropper.
  - Concentrated extract, CX#3 (Bactrex): 1/2 oz. glass bottle with dropper.

Notes

Clinicans Guide to Top Programs spells out how to implement in clinical practice.



Step 2 - The Liver Rebuilding Program

It is most important to do the "30 Day Liver Rebuilding Program" immediately following the "Seven Day Liver and Gall Bladder Flush." It is always important to strengthen and build after completing a cleansing program. Otherwise the body may be weakened from too much cleansing. Once liver and gall bladder function improve, a new level of health is yours!

Upon Arising (Wait at least 1 hour before eating.)

- 2 L (Liver)
- all Bladder)
- in B Stress Complex)

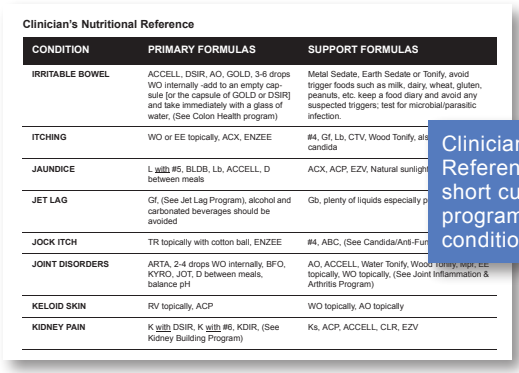
or Lunch

- Multi-Vitamin) - both dry & oil capsules
- (At least 2 hours after or 1 hour before food.)
- 1 BSV (Vitamin B Stress Complex)

To complete this program (both steps) will require the following:

1 bottle Lb (Liver/GallBladder)
1 bottle Ls (Liver-s)
2 bottles L (Liver)
2 bottles AZV (Multi-Vitamin)
2 bottles BSV (Vitamin B Stress Complex)

Clinician's Nutritional Reference provides short cuts to effective programming for known conditions.



Clinician's Nutritional Reference

CONDITION	PRIMARY FORMULAS	SUPPORT FORMULAS
IRRITABLE BOWEL	ACCELL, DSIR, AO, GOLD, 3-6 drops WO internally -add to an empty capsule [or the capsule of GOLD or DSIR] and take immediately with a glass of water, (See Colon Health program)	Metal Sedate, Earth Sedate or Tonify, avoid trigger foods such as milk, dairy, wheat, gluten, peanuts, etc. keep a food diary and avoid any suspected triggers; test for microbial/parasitic infection.
